

## JUDY AND JERRY JOAQUIN

### **Judy**

Judy was born and raised in Washington. She has two children and 5 grandchildren. Judy retired from the Puget Sound Naval Shipyard in 2002, after 20 years of work there. Judy is a member of the Puget sound Genealogical Society and is a musician at Christ Lutheran Church in Belfair. She is married to Jerry Joaquin, and they live in Allyn.

In retirement, Jerry and Judy enjoy traveling. Their most recent trip was to New England in October of 2007, when they visited and took pictures of the covered bridges in Maine and New Hampshire. Judy joined the Camera Club with Jerry, but did not begin to do more photography and enter images for the first year or two. She began to bring in images from her travels and has done quite well (editor's observation).

Judy has served as the F:67 Camera Club Secretary for several years. In her role, she not only kept minutes of meetings, but served in a communications role, being sure that club members are informed. She has handled the membership applications and has maintained the member lists. She steps down as Secretary in March, but will continue in the Communications role she has developed for the club. She and her husband Jerry are responsible for many of the club's successes.

### **Jerry**

Jerry was born and raised in Hawaii. He enlisted in the U.S. Navy where he served for four years. He began his civil service with the Pearl Harbor Shipyard. In 1968 he transferred to Puget Sound Naval Shipyard. He retired in 1996 after 36 years. He is married to Judy Joaquin and they live in Allyn.

Besides woodworking and golf, both of which he does very well, Jerry enjoys photography. He does that very well also, taking it more seriously in recent years, now entering exhibitions and working on PSA Star Ratings. Formerly a slidemaker, he is now

shooting with a digital SLR system. Much of his work is Nature photography, including landscapes and animal wildlife. He has tackled Photoshop whenever he has had the chance, and is learning to use its basic photo editing tools.

Jerry is very active serving the f:67 Camera Club, having been its Slide Director, Salon Chairman, and editor of the club's revised Bylaws and Annual Show rules. Jerry does other valuable work for the club behind the scenes. He used his woodworking skills to create some needed trophies and plaques for club awards. He and Judy are responsible for many of the club's successes.
