November – December 2006

We Joyfully Accept Christina and Orton Krueger's Offer to Host the Christmas Party at their Home, Saturday, December 16!!!!

This is one of the family participation events on our Camera Club calendar. All family members are invited, in fact urged to attend. This is the time when we have a chance to meet the spouses (and children) who at other times do not choose to participate in club activities. It is a **pot-luck dinner**, so bring your favorite dish. We don't make any assignments, and so far, we've never had a meal at which there were all main dishes, all salads or all desserts but since the camera club cooks are always great, that wouldn't necessarily be bad. We usually get together about 5:00 PM

There will be a **gift exchange**. The gift **does not** have to be a photographic item and we usually set an upper limit at the cost of a roll of film. *In these digital days we may have to get some other criteria since one of these days people will start asking "What's film??"*

Wrap the present and **put your own name on the package**. At the party, all of the names are put in a container, one for the ladies and one for the men and then we each draw a name to determine which package we each will receive. If you can't think of anything to bring—give something you would like to have.

After the dinner we have a very short business meeting. This year we will have a home-grown program. Each member is to bring 6-10 images (slides or prints) that he/she would like to share with the group for whatever reason. Following the program, there will be a visit from Santa who will distribute the gifts and there will be a time for visiting.

HAVE A WONDERFUL HOLIDAY SEASON

Updates of importance – The Audobon Festival was shown on program night at Sheridan Park with an excellent turnout and audience response. Thank you to all of the people who contributed slides to the show. They were Marge and Bill Biedel, John Davis, Adam Escalona, Steve Fisher, Jim Haney, Noray Larson, Bob Paul, Roger Schuettke, Jack Templeton and June Wilkins. The best news is that the program chairman of the Audobon group has invited us to present the show to their group early in 2007. *That means that we will not be able to return the slides to the makers until after that showing. If Bill Biedel has not contacted you and you need one or more of the slides urgently, get in touch with him so your slide can be returned and an adequate replacement found..*

Steve Fisher has notified us that the Photo-journalism Interclub Competition for PSA this year will be totally digital. That means

that images will have to be submitted in digital form and in time that the projection mechanics for the selection can be done (about 3-5 days ahead of the selection meeting date)

It is time to get your International Exhibition acceptance records in to Jim Haney who is the Salon Participation Award chairman for the club. Almost any exhibition that is listed as an approved exhibitions in the PSA Journal that has sections for slides, digital images, prints and commercial prints is eligible. Report card or catalog copies that document your acceptances in the shows should go to Jim before the end of December. Even if you get no acceptances you get credit for entering so that record is important also. The person who gets the most points for the combination of exhibitions entered, successful entries and possible honors will receive a handsome plaque at the annual show to keep and display for a year.

October 15, 2006

Dear Bill and Margaret,

It gives me great pleasure to inform you that each of you have been selected by the Honors and Special Awards Committee to receive the Nature Division's Gold Medal Service Award. This award is the highest honor that the Nature Division can bestow on its members.

You were both selected based on your long and devoted service to the Nature Division. I am sorry that you were unable to attend the PSA Conference in Baltimore this year to receive your awards in person.

PHOTO-TOPICS

The f:67 exhibition categories for November, December and January are defined here. Note that print category "Open" is now defined under "General".

GENERAL

Any subject is acceptable.

ANIMALS

Any living member of the animal kingdom, wild or domestic. (Also includes insects, spiders, sea creatures, etc).

NATURE

All creatures and plants that are wild species and not modified by man. Also included are natural phenomena, geological formations, archaeology, astronomy, and weather. Other nature information:-- Images depicting nature adapting to the impact of man are acceptable provided the human element enhances the nature story, and the above standards are followed. Images of wild species in a controlled environment are acceptable provided they accurately depict a natural scene. Photographs of stuffed specimens and obviously set arrangements are not acceptable.

STILL-LIFE

An arrangement of stationary elements, where subject arrangement and illumination have been significantly determined and controlled by the maker.
